## INCLEMENT WEATHER NOTICE

As winter weather is anticipated in the region this week, MCT is reminding passengers that **snow routes, detours, and delays are possible**; particularly in hilly areas.

As the weather develops, updated service information will be provided in real time via [MCT Text Alerts](#) and MCT's [Facebook page](#).

As always with winter weather, be prepared for service delays and detours, allow extra time for travel, dress for the weather, and know buses cannot stop on snowy, icy hills.
